

LET'S TOAST TO YOU

As a family business, we stand behind new families
and new opportunities.

Celebrate your moment by purchasing a sparkling wine toast for
you and all of your adult guests, and we will donate \$1.00 per
glass back to one of three local charities of your choice.

This is a chance for your new family to provide
opportunity to families in need. For more information, please
inquire with your Special Events Planner.

The Brain & Mind Matters Community Fund (BAMM) was developed as a way to support outpatient care for individuals suffering from traumatic brain injuries or mental illness. Through Parkwood Hospital, in concert with the Huron Perth Healthcare Alliance, and through local agencies in Perth County, BAMM provides funding and ongoing support for the approximate 20% of the population who will be diagnosed with mental trauma in their lifetime. Since its start in 2014, BAMM has raised over \$400,000, and with support of the Cowan Foundation and RBC, has granted out over \$130,000 for outpatient care.

Childcan raises awareness and funds to provide grassroots, direct-to-family support. From diagnosis, through treatment, to recovery or bereavement, Childcan makes a very real difference for its families. It is estimated that one third of a family's income will go to the costs associated with a devastating diagnosis of cancer, at a time when that income is reduced by one or both parents scaling back their work commitments in order to care for their child. The costs are immediate and ongoing - hospital parking, meals, travel, medical expenses. The support provided through Childcan is designed to alleviate this financial burden, so that families can focus on their child's care.

As a stand alone charity that does not receive any level of government funding for its charitable programs and services, the Humane Society of Kitchener Waterloo & Stratford Perth is the leader in animal welfare in its communities. Whether it's a one-time donation, a recurring monthly gift, a tribute or a bequest, your contribution will make a life-changing difference for both animals and the people who love them. The KWSP Humane staff offer support for pet behaviour concerns, teach children the importance of responsible pet ownership, and ensure every adoptable pet finds a home.
